EDUCATION

Indian Institute of Information Technology Ranchi

B.Tech. in Computer Science and Engineering, CGPA: 8.06/10

DAV International School

Senior Secondary (CBSE), Science — Class XII: 95.6%, Class X: 98.2%

Ranchi, Jharkhand

Aug 2023 – Expected May 2027

Mumbai, Maharashtra

2021 – 2023

EXPERIENCE

Software Engineer Intern

Global Groupware Solutions Ltd.

Jun 2026 – Present

Remote

- Building the MyEmployWise 2.0 web application, developing the Nx monorepo frontend against Figma and Notion specifications while resolving live client tickets.
- Cut build time and bundle size by 53% within the first month by migrating the toolchain to Rspack and SWC.

Software Engineer Intern

StealthEra Innovations Pvt. Ltd.

May 2026 – Aug 2026

Remote

- Built the company's wearable health platform from scratch, owning the cross-platform Flutter application end to end — responsive UI screens, reusable component libraries, app-wide state management, local storage, and offline data synchronization.
- Architected and implemented the backend services and REST APIs powering real-time health data ingestion from wearable devices, along with the companion analytics dashboard.
- Containerized the backend with Docker and deployed to AWS EC2 behind a static Elastic IP, configuring security groups and CI/CD workflows; also shipped the company product website.

Full Stack Developer Intern

Acumensa Technologies Pvt. Ltd.

Nov 2024 – Apr 2025

Remote

- Developed full-stack applications for internal and client use cases.
- Built and tested complex-scenario applications involving IoT integrations across multiple communication channels.
- Integrated backend services including AWS EKS for large-scale deployment, sustaining high uptime while processing 10M+ records.

PROJECTS

EduBox – Intelligent Student Workspace | Next.js 15, TypeScript, Convex, Nuclia RAG

Aug 2025 – Sep 2025

- Built an AI-powered student workspace unifying notes, academic planning, file management, campus resources, and progress analytics into a single platform.
- Engineered a RAG pipeline with Nuclia and CopilotKit-powered AI assistants using Gemini and Groq for semantic document search and contextual academic queries.
- Developed a real-time serverless backend with Convex and Clerk, plus Express REST endpoints for document synchronization and multi-format ingestion.

AI Video Generation Platform | Next.js 15, ElevenLabs, AssemblyAI, Remotion, Drizzle ORM

Sep 2024 – Nov 2024

- Earned 110+ GitHub stars and 29 forks following the project's open-source release.
- Built an end-to-end AI pipeline that converts natural-language prompts into scripted, narrated, captioned, and programmatically rendered videos.
- Orchestrated GPT-4/Gemini, ElevenLabs text-to-speech, AssemblyAI captioning, and Remotion, with Clerk authentication and Drizzle ORM on Neon PostgreSQL.

Mindful – AI Mental Wellness App | Flutter, Node.js, PostgreSQL, Redis, TensorFlow, Llama

Oct 2024 – Nov 2024

- Built a cross-platform mental wellness application delivering Llama-powered personalized guidance and integrated relaxation tools through a Flutter interface.
- Implemented extensible integrations for Gemini, Anthropic, OpenAI, and Mistral APIs, and developed a TensorFlow facial-emotion recognition model using the FER2013 dataset.
- Designed a Node.js and PostgreSQL REST backend following Clean Architecture and SOLID principles, using Redis for low-latency operations and deploying on Render.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Go, Dart, C/C++, SQL

Frontend & Mobile: React, Next.js, Flutter, Tailwind CSS, shadcn/ui, Three.js, Framer Motion

Backend & Databases: Node.js, Express.js, FastAPI, REST APIs, Convex, PostgreSQL, Redis, Firebase, Neon, Drizzle ORM, Prisma

AI & ML: Retrieval-Augmented Generation (RAG), CopilotKit, LangGraph, Vercel AI SDK, OpenAI API (GPT-4), Gemini, Groq API, Llama, TensorFlow, scikit-learn

DevOps & Tooling: Git, Docker, Kubernetes, CI/CD, GitHub Actions, Nx, Rspack, SWC, AWS, GCP, Vercel, Render, Apache Kafka

Practices: Agile/Scrum, Clean Architecture, SOLID, Unit Testing, Code Review, System Design
